## HAND CLEANERS

### REINOL® ORIGINAL

Internationally used and trusted since 1927, Reinol® Hand Cleaner is the industry's leading, solvent free, hand cleaner. Reinol® nourishes the skin while removing grease, paint, tar, and most other kinds of dirt. Reduces dry skin, allergies, itchiness and inflammation - problems associated with normal solvent-based hand cleaners.

**Reinol® contains natural ingredients - NO SOLVENTS.** Economical and effective; available in a 2 litre cartridge that fits wall-mounted dispenser, and allows 600 handwashes per 2 litre cartridge. Also available in 250ml tubs, 500ml tubs, 1 litre tubs, 2 litre tubs, 2 litre cartridges (for dispenser) and 10 litre buckets.

### REINOL® K

An industrial strength, solvent free, hand cleaner formulated with pumice. Easy on hands, fortified with emollients to reduce drying and cracking, with a pleasant fragrance. Available in 2 litre cartridges (for dispenser) and 5 & 10 litre buckets.

### FLAX

Contains a unique "wood flour" which provides a thorough clean, yet remains gentle on the hands. This solvent-free cleaner also conditions the skin with every wash. It contains cosmetic oils for added skin conditioning. Can be used for light or heavy soil on the hands. Available in 1 litre tubs, 2 litre cartridges (for dispenser).

### ROCKET®

A heavy duty gel-type hand cleaner. Available in Rocket® Smooth (no scrubber) and Rocket® Heavy Duty (wood flour scrubber). Can be used without water. Available in 1kg tubs, 4,5kg and 20kg buckets.

## DISPENSERS

### WHY USE A DISPENSER

The many benefits of using the Reinol® dispenser, as opposed to providing handcleaners in bulk containers such as buckets, include:

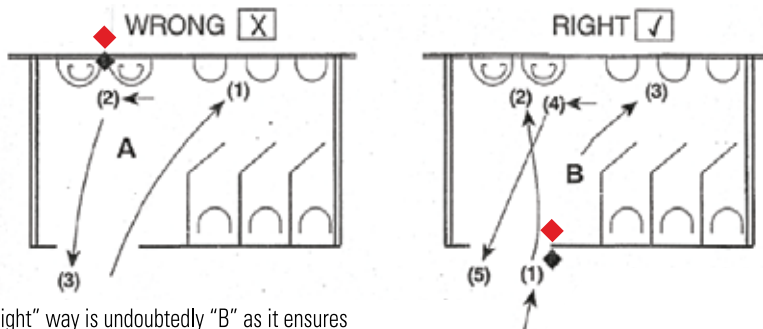

- Helping to eliminate the high risk of cross infection between users;
- Reducing the product wastage due to contamination by grease, chemicals and swarf resulting in the remainder of the product being disposed of;
- Control of the product usage, as each turn of the Reinol® dispenser handle will dispense the exact amount needed to wash the hands leading to minimal product waste;
- A cleaner washroom requiring less work to clean;
- A general impression that skin care and personal hygiene are important in the workplace.

The Reinol® dispenser has been designed to be:

- Strong and reliable;
- Simple to operate;
- Easy to refill;
- Hygienic and easy to clean;
- Drip and leak free;
- Effective in encouraging the correct usage;
- Easy to install.

The physical installation of dispensers is something to which, frequently, only cursory attention is paid. Traditional dispensers have been located over the wash basins, however when placing a Reinol® dispenser, ensure that it is not placed above a wash basin if possible as per the diagram below.

◆ Dispenser

The "right" way is undoubtedly "B" as it ensures

- while moving from point (1) to point (2) the user is applying the handcleaner to the skin dry before adding water to form a lather.
- that heavy soiling is not transferred from the hands to other, more sensitive parts of the body.

The economical and effective way of dispensing. Each 2 litre cartridge (as pictured above) will allow 600 hand washes. A protective casing (shroud) is also available (see far left).

# CARING FOR INDUSTRY

## LIQUID CLEANING CHEMICALS

### BH-38® - INTENSIVE GENERAL PURPOSE CLEANER

A super strength degreaser concentrate formulated to easily and economically clean a large variety of industrial and domestic areas. Complies to SANS 1344 (performance specification) and SANS 1828 (safe to use wherever food is prepared or packaged). Contains no caustic, ammonia or abrasives. Available in 750ml spray bottle, 1, 5, 25, and 210 litre containers.

### SC200 - EXTRA HEAVY DUTY

A highly concentrated, caustic based industrial degreaser designed specially for cleaning tasks which defy normal liquid detergent compounds. Will attack aluminium parts and painted surfaces. Ideal for unpainted concrete floors, driveways, garage forecourts etc. Available in 1, 5, 25, and 210 litre containers.

### SD-20 - ALL PURPOSE CLEANER

A specially formulated, water-based cleaner designed to accomplish an unusually broad range of cleaning tasks. Complies to SANS 1828 (safe to use wherever food is prepared or packaged). Contains no caustic, ammonia or abrasives. Available in 750ml spray bottle, 1, 5, 25, and 210 litre containers.

### WC 2000 - TOILET BOWL AND URINAL CLEANER

An acid based, honey coloured, water-thin liquid specially formulated to clean and sterilize toilet bowls and urinals. The acid foundation and quick acting ingredients enables the removal of unsightly blemishes. The one-step cleaning action penetrates scum, mildew stains, hard water deposits and uric acid coatings easily, without undue need for scrubbing. Available in 1, 5, 25, and 210 litre containers.

### TRUK WASH - ALL PURPOSE CLEANER

A water based cleaner that is safe for use anywhere. Biodegradable and does not contain solvents, caustics, ammonia or abrasives. Will not attack paint or aluminium. Cleans: trucks, cars, bikes, boats, quads, jet skis. Hard surfaces such as tiles, bricks, paving, painted walls, windows, counter tops etc. Removal of light soiling on clothing and upholstery. Available in 5, 25, and 210 litre containers.

## LIQUID CLEANING CHEMICALS

### E - HAND WASH

A water based liquid hand / skin wash soap which quickly penetrates and cleans away dirt without damaging the skin. Economical, effective and efficient. Does not contain solvents. Suitable for use in most wall mounted dispensers. Available in 5 & 25 litre containers.

### SOAPIES - LOTIONIZED HAND AND BODY SOAP

Formulated to provide the ultimate in hygienic hand and body care. Produces a luxurious lather which quickly penetrates and cleans away tough dirt without depleting natural skin oils. Available in Blue or Pink in 1 litre, 1 litre pump, 5, 25, and 210 litre containers.

### CLEAN CARGO - HIGH PRESSURE CLEANING LIQUID

A super strength degreaser concentrate. When used through a high pressure washer, Clean Cargo assists in neutralizing the static charge build up on the washed surfaces thereby helping to inhibit dust from reattaching to that surface. It removes road film and other tough soils from painted metal, painted wood and fibreglass surfaces. Available in 5, 25, and 210 litre containers.

### GLEAMOL - DISHWASHER AND GENERAL PURPOSE CLEANER

A liquid detergent that has been specially formulated to quickly remove grease and general grime from all hard surfaces. It has a particular strength for dishwashing while remaining mild and gentle to hands. Available in 1, 5, 25, and 210 litre containers.

### STERIGENT

Sterigent is a concentrated, versatile liquid disinfectant hard surface cleaner having excellent cleaning and deodorizing properties. Sterigent is a bactericide and has been tested against Pseudomonas aeruginosa, E Coli & Staphylococcus aureus. Sterigent is an excellent bactericide at 23mls Sterigent to 1 L of water. Sterigent deodorizes, disinfects, kills germs fast and is economical & non flammable. Available in 5 and 25 litre containers.

since 1927

## LIQUID FLOWBINS

Bulk flowbins are ideal for storing and dispensing all of the REINOL® brands of water based liquid degreasers. Our flowbins are supplied with a full range of fittings, which include all necessary pipes, hoses, delivery nozzles, flowmeters, MSDS data sheets, signage and a stand, if required. The flowbin stand is moveable, resulting in storage in any desired location. A flowmeter may be used in order to measure exact amounts to be decanted into smaller containers i.e. 5 litres at a time. Available in flowbin sizes of 1000 litres, we supply and deliver to suit your requirements, including refilling when necessary. Pricing is dependent on location. Used extensively for cleaning all types of industrial and mining equipment and vehicles, the combination of a REINOL® flowbin and specialized degreasers is unbeatable!

## SKIN CARE AND SKIN PROTECTION CREAMS

### REINOL® No.1 SKIN CARE CREAM

Unique formulation contains concentrated natural oils and waxes to penetrate the skin and protect it from within. Allantoin and collagen assist in nourishing damaged skin cells and skin tissue. Moisturising ingredients prevent roughness and dryness. Available in 50ml tubes, 500ml tubs and 2 litre bucket with pump.

### REINOL® No.3 SKINGARD SKIN BARRIER CREAM AGAINST ACIDS & ALKALIS

Forms a dense water-repellent layer to prevent acids, alkalis, detergents and other harmful substances from penetrating the skin. Special powder ingredients cover the pores without blocking them to protect against harmful dusts. Available in 50ml tubes, 500ml tubs and 2 litre bucket.

### REINOL® No.2 SOLVGARD SKIN BARRIER CREAM AGAINST SOLVENTS

Forms a protective layer against solvents such as thinners, petrol, diesel, paraffin and turpentine. It also shields against powders. Provides protection, yet still allows the skin to breathe. Dry and non-greasy. Simply washes off with water. Available in 50ml tubes, 500ml tubs and 2 litre bucket with pump.

### REINOL® No.4 FOOTGARD FOOT CARE CREAM

Refreshes tired feet, reduces excessive perspiration and prevents unpleasant foot odour. The camphor in the cream leaves feet feeling refreshed. Available in 50ml tubes and 500ml tub.

## STUFF RANGE

### DRIVEWAY & PAVING STUFF®

- Highly concentrated, caustic based industrial cleaner designed to clean very dirty greasy concrete floors and brick driveways
- Non-flammable with low foam characteristics
- Due to its' high concentration DRIVEWAY & PAVING STUFF® may be diluted with water at a rate of 1:10
- CAUTION: will attack aluminium parts and painted surfaces

- Always wear the correct Protective equipment, i.e. goggles & gloves
- Only available in 3 Litre containers.

### TOILET & DRAIN STUFF®

- Acid based, honey coloured, water thin liquid, specially formulated to clean and sterilize toilet bowls and urinals
- One step cleaning action penetrates soap scum, mildew stains, hard water deposits and uric acid coatings easily without undue need for scrubbing

- Always wear the correct Protective equipment, i.e goggles & gloves as it is a corrosive product and will damage the skin.
- Can be used on porcelain, vitreous china, fiberglass, etc.
- Only available in 3 Litre containers.

### HIGH PRESSURE CLEANING STUFF™

- Specially formulated all - purpose water based liquid cleaner to accomplish an unusually broad range of industrial and domestic maintenance and cleaning applications.
- Contains no ammonia, no caustic and no abrasives.
- Formulated as a grease and oil remover, HIGH PRESSURE CLEANING STUFF™ may be used on floors, plastic, marble, metal and all hard surfaces.
- Dilute with water as required
- Only available in 3 Litre containers.

# CARING FOR INDUSTRY

## ULTRASONIC CLEANING SYSTEMS

### APPLICATIONS

- Laboratory, optical, pharmaceutical, dental and hospital equipment
- Automotive, aviation and aerospace industries
- Jewellery, plating industry
- Vehicle hydraulic systems, gearboxes, shock absorbers etc.
- Electronic and food equipment

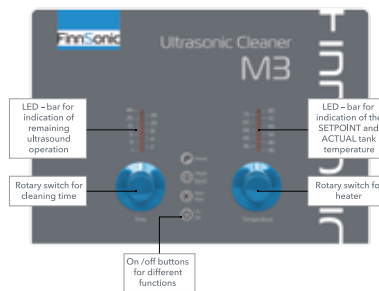

### FINN SONIC INDUSTRIAL CLEANING SYSTEMS

The complete range of Reinol® liquids together with FinnSonic, are meeting today's needs for environmental safety and economy. Ultrasonic vibrations in the cleaning liquid remove grease and other impurities from even the most difficult to get at places, including swarf from machined parts. Energy and detergent consumption is greatly reduced thanks to the economic system.

### SMALL IN SIZE, GREAT IN POWER

- Our bench top range has rounded corners.
- Easy to service, maintain and clean.
- Booster, sweep and de-gas functions.
- Thermostatically controlled heating.
- Available tank sizes: 3lt, 12lt and 30lt.

### OUR MI RANGE IS ROBUST AND RELIABLE

- Booster, sweep and de-gas functions.
- Thermostatically controlled heating with 7 day timer.
- Built in weir for surface control.
- Dry-run protection with temperature interlock.
- Available Tank sizes: 80lt, 120lt and 160lt.

## ULTRASONIC CLEANING SYSTEMS

### FINNSONIC MOULD MAINTENANCE

- Short and simple wash process.
- No manual labour required.
- High level of cleanliness.
- No abrasion of precise edges and surfaces.
- Suitable for all moulds, large and small.
- User friendly process and machinery.
- No solvents used.

# NEW! NEW! NEW!

## FINNSONIC SPINTEC WASHES THE PARTS FOR YOU!

Parts for washing are loaded into the basket from the top of the machine.

During washing, the liquid is sprayed onto the parts from underneath, above and from the side.

The basket rotates inside the machine, which provides an even washing result.

A storage tank for the detergent is located at the base of the machine, and is heated.

A combination of chemicals, heat and spray pressure ensure a consistent washing result.

### FEATURES

- Easy to control with digital timer and temperature controller.
- Run dry protection for heating and circulation.
- Chamber, spray pipes, nozzles, pump and valves are stainless steel.
- Lid is equipped with gas springs, safety latch with automatic cut out.
- Compressed air gun to dry parts.
- Adjustable feet to level the unit and vapour removal connection.
- For heavier loads, a removable basket with trolley is available.
